

# MS THESIS INTERNSHIPS IN COMBUSTION SCIENCE

The Clean Combustion Research Center (CCRC) at King Abdullah University of Science and Technology (KAUST) has several internship projects available in the areas of experimental and numerical combustion. All Projects have a minimum 6 month duration. The MS student will participate in research activities in close collaboration with faculty, postdocs and senior PhD students.

CCRC Visiting Student Fellowships are available to support participating students. The fellowships provide a monthly stipend and are awarded on merit basis. Send your enquiries regarding the CCRC Visiting Student Fellowships to [Mark D. Hull \(mark.hull@kaust.edu.sa\)](mailto:mark.hull@kaust.edu.sa).

Please contact individual CCRC faculty members for information about specific projects. KAUST is an equal opportunity employer.
